

Real progress—real results

Our sustainability journey has come a long way in helping us understand how our business affects the environment, and how we can do things better to minimize our impact while still helping the world connect.

2023	2024	2025	2030
 <p>Greenhouse gas (GHG) emissions for scopes 1 and 2</p> <p>Achieved 21% emission reduction compared to 2022 (target was 5%) and 38% compared to 2019 baseline (target was 30%)</p> <p>Introduced SVScore™ (Sustainability Value Score)</p> <p>To measure the environmental impact of our base station antennas (BSA)</p> <p>Lifecycle Assessment (LCA)</p> <p>Completed 7 LCAs for BSA, HELIAX solutions and structural support solutions</p>	 <p>Lifecycle Assessment (LCA)</p> <p>Completed 1 LCA base station antenna and 1 LCA for filters products families</p> <p>Recycled raw materials</p> <p>Launched project to increase the use of recycled raw materials in our products. Assessment of the current situation done and implementation ongoing.</p> <p>Refurbishment service</p> <p>Launched new service on decommissioned base station antennas and filters products to extend their lifespan.</p>	<p>Science-target definition</p> <p>Set new SBT objectives and defined associated abatement strategy</p> <p>Recycled raw materials</p> <p>Continue implementation of recycled raw materials</p> <p>Refurbishment service</p> <p>Continue refurbishment service deployment</p> <p>Greenhouse gas (GHG) emissions for scopes 1 and 2</p> <p>Continue reduction plan with priority on process gas and renewable energies</p>	 <p>Greenhouse gas (GHG) emissions for scopes 1 and 2</p> <p>Achieve SBTi approved targets</p>
